

## Devices for Dreams Share Toolkit

### About

The Devices for Dreams program is equipping 100 students with tools for the future, to become the future. The Vision International Center in Pune, India provides free, private grade education to underserved children grades K-12. Due to the COVID-19 pandemic, students do not have access to the tools they need to continue their education.

The goal is to provide every student with a tablet they can use to continue their education virtually. Help these students achieve their dreams by closing the digital divide this holiday season.

### Sample Social Media Posts

*Help a student continue their #education virtually by supporting Devices for Dreams, an initiative to provide 100 students with 100 tables this holiday season. Learn more:*
